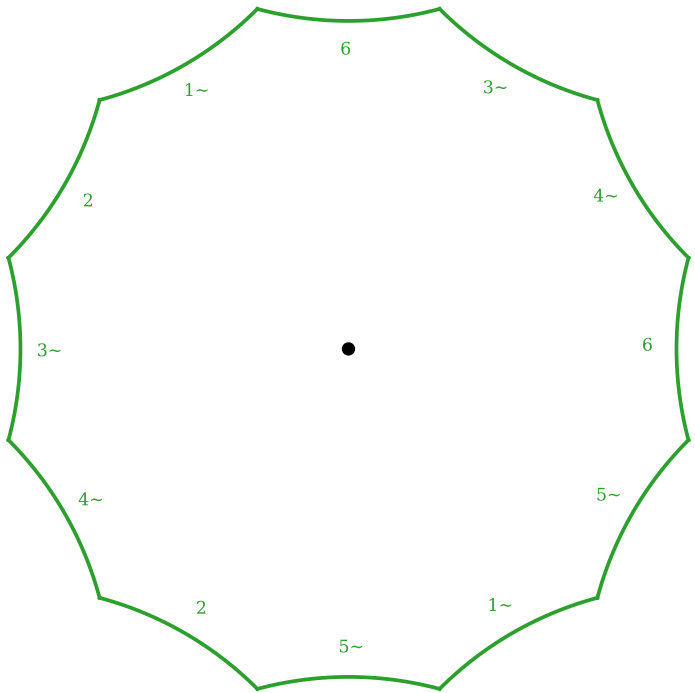
nec_N12#7: N = 12, k = 1, non-orientable, chi = -1 -- Dirichlet domains (green; sides with the same number are identified, n~ = orientation reversing)
each picture is centred at the centre of its domain; the polygons of the fundamental domain of Step 1 in grey


centred at a disc of packing 1: 12 sides, vertex cycles 3+3+3+3
all checks passed
